

2024 Annual Report to Watamu Association for Marine Litter and Roadside Waste Collection Support

WA support covers the cost of the following waste management and environmental services:

- Twice weekly collection of marine litter from the Marine Park beach using the Ecoworld canter.
- Monthly disposal of non-recyclable marine litter at the County facility using the Ecoworld canter. Marine litter comes from beach cleanups carried out by Watamu residents staff, KWS, the Watamu Marine Association Blue Team and other cleanup teams. All recyclable plastic, glass and metal waste is sorted and recovered at Ecoworld.
- Roadside cleanups by 4 members of the community Blue Team every 2 weeks from Richlands to Darakasi and Turtle Bay to Temple Point.

Category	Amount (Kgs)
Plastic	2,147
Metal	87
Glass	848
Other non-recyclable waste	18,831
Total	21,913

Impact

The support from the Watamu Association enabled the collection of 21, 913 kgs of waste in 2024 , with 3,082 kgs successfully recycled by EcoWorld. This ongoing partnership continues to make a significant impact on the wellbeing and health of the Watamu marine ecosystems and the cleanliness of public roadsides.

We remain committed to these services and thank the Watamu Association for its continued support.

With appreciation,
The EcoWorld Team
